REMOTE Controller

Total control at your fingertips.

NOVIQ remote controllers are designed to give you quick and effortless control over your home. With dedicated buttons for lights, fans, dimmers, curtains, and scenes, managing multiple devices becomes simple and intuitive.

Built with reliable infrared sensing and tactile buttons, the remote ensures responsive operation and ease of use for every family member. Added safety features like child lock make it ideal for everyday home use.

VOICE Control

Speak. Control. Relax.

NOVIQ smart switches are designed to work seamlessly with leading voice assistants, allowing you to control your home using simple voice commands. From turning lights on and off to activating scenes and routines, everything responds effortlessly to your voice.

Compatible with popular smart ecosystems, NOVIQ offers flexible control through voice, mobile app, or automated schedules giving you complete freedom to manage your home the way you prefer. Experience hands-free convenience and smarter living, every day.
